

# oneHQ IT CONSULTING.

We specialise in providing IT consulting services. While we offer and install many of the solutions we recommend, we also offer pure IT consulting services.

We will review your project and goals and will suggest what technology solutions would serve you best. Then we will evaluate suppliers that can design, implement, monitor and support the solution. We research the market and let you know what exists, what is recommend and why.

You ultimately make the decision that is best for your organisation but you can rest assured knowing that we are your partner and are here to help you make the best decision.

"OneHQ brought absolutely the right people with the right expertise at the right price to help us solve some of our thorniest tech challenges."

# HERE'S HOW WE CAN HELP.

## SPECIALIST EXPERTISE

- Sometimes you'll have something different or new to do, or a complex decision to make. The OneHQ team has business and technology staff from a wide background of industries and roles, we can be a part of your team to help you for a bit then let you get back to it.

## BUSINESS ANALYSTS

- Our talented technical and business-focused Business Analysts will work with you to turn your business goals into a plan for the right support technology platform or business change.

## SOLUTION ARCHITECTS

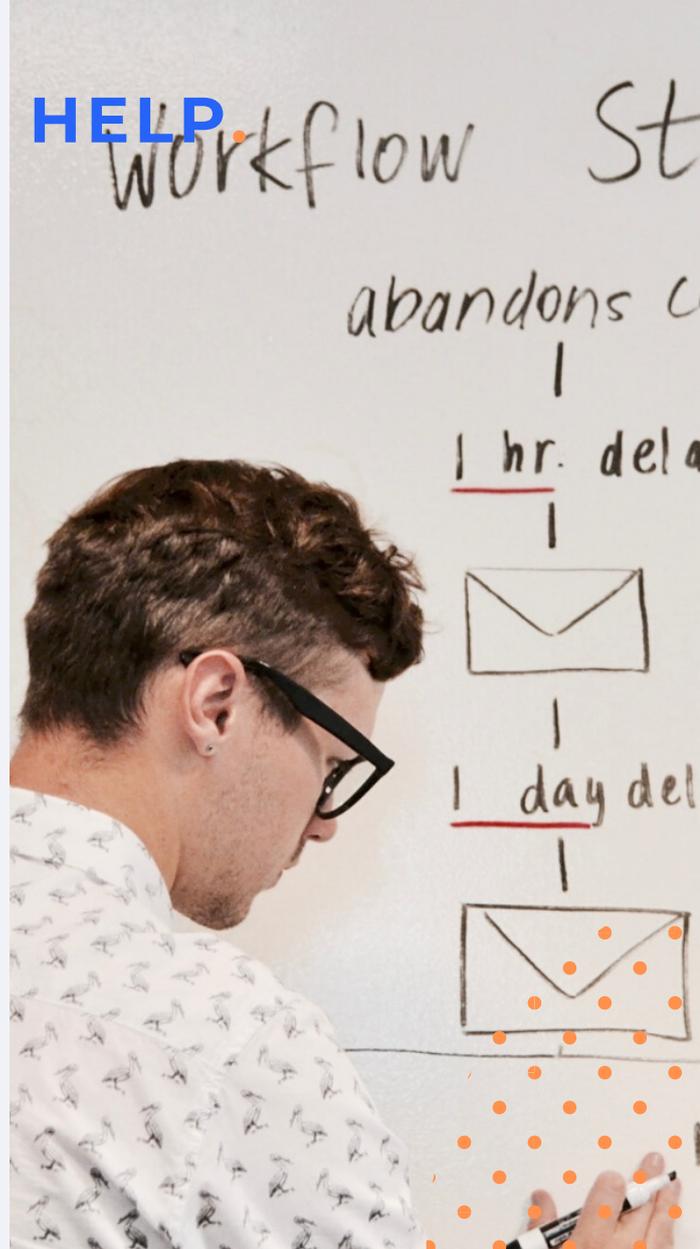

- These guys and girls take your business requirements and do the technology design and selection to bring it to life.

## SOFTWARE DEVELOPERS

- Some solutions require a little software code to be written or systems to be configured, our developers take it all in their stride.

## PROJECT MANAGERS

- Sometimes for the more complicated solutions we'll recommend the use of a project manager to coordinate the different parties involved and make sure you get the right outcome on time and budget. We'll even keep you updated along the way.
