

OneHQ MICROSOFT AZURE.

OneHQ is an expert in Microsoft Azure cloud computing. You can trust our Azure technical team to move your data, applications and other vital systems from your onsite computers to Azure, or to move from another cloud environment to Azure for successful cloud-to-cloud migration.

Our process for seamless cloud migration involves a safe, secure transition roadmap to avoid any gaps or delays in services. Years of experience means we understand all the complexities of cloud migrations including; data stored and managed remotely by external organisations or in multiple locations.

OneHQ addresses your requirements for privacy, interfacing of multiple systems, application portability, data integrity, continuity of business operations and security.

You can trust that we'll take your business to the cloud safely.

Resilience

Your business will stay online with redundant systems operating in different locations

Compliance

If you are in a sector that has compliance requirements like legal and finance, Azure is for you

Security

Businesses and agencies with the very highest security requirements rely on Azure

Flexibility

Pay for what you use - as you use it. No need to buy permanent capacity for your brief busy periods

HERE'S HOW WE CAN HELP.
